Boston

Done at
The Everett Press, Boston

WE are pleased to call attention to our new catalogue of Ornamental Iron Work.

We have been established in business thirty years, and it is our purpose still to maintain the high standard of excellence in all the work which we turn out.

We have a force of skilled workmen who have been trained to execute our work so as to bring about the most pleasing results.

Our modern shops, in Chelsea, Mass., which are only twenty minutes' ride from Scollay Square, are always open to architects and our clients for the inspection of work.

Our corps of draughtsmen and designers is at the service of our customers to plan and make sketches to get the best results.

High-grade workmanship and prompt deliveries are our aim.
